

**FEUILLE DE RÉALISATION**

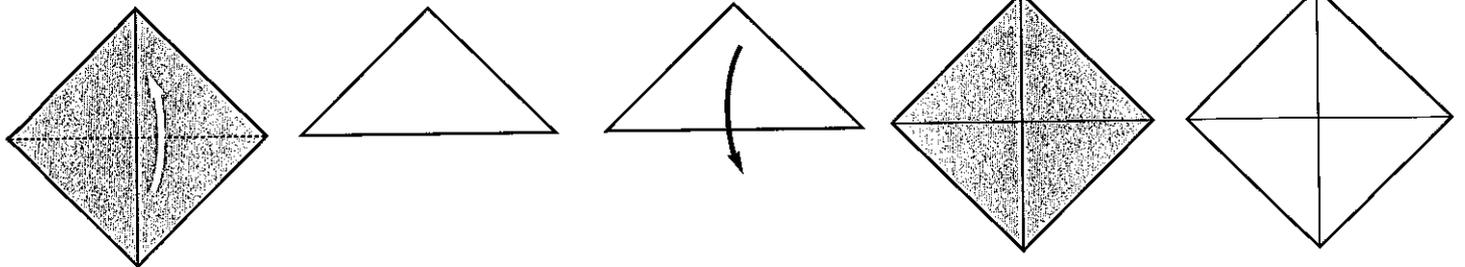

*Difficultés : Les plis inversés des dernières étapes. Les grands losanges des étapes 18 et 19.*

**■ Prendre un carré de papier.**

1. Plier sur la diagonale.

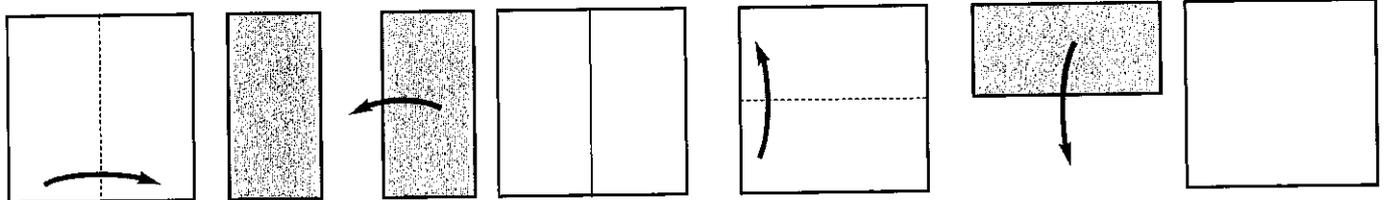

2. Redéplier.

3. Déplier sur l'autre diagonale.

4. Redéplier.

5. Retourner.

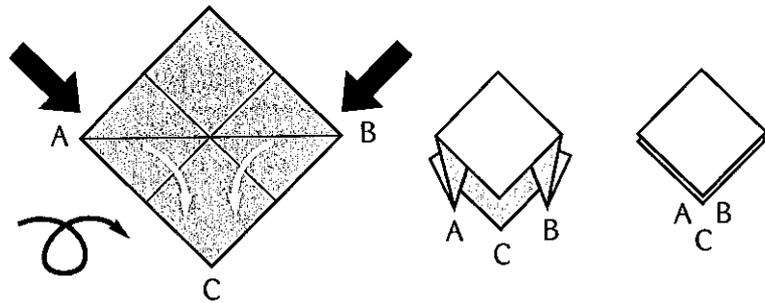

6. Plier sur la médiane.

7. Redéplier.

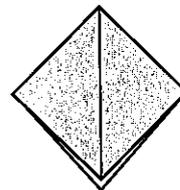

8. Plier la seconde médiane.

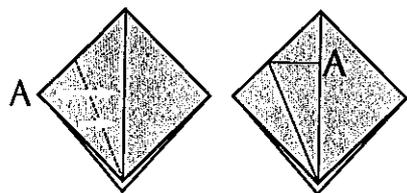

9. Redéplier.

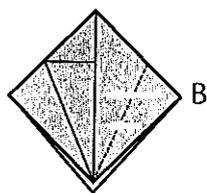

10. Retourner et rapprocher les points A et B de la pointe C et replier totalement.

11. Placer le pliage ainsi.

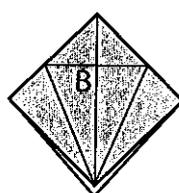

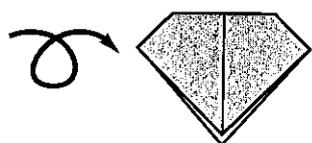

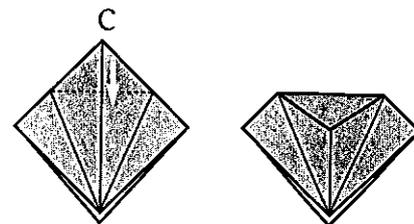

12. Plier la pointe A sur l'axe de symétrie.

13. Réaliser le même pli pour la pointe B.

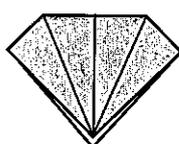

14. Plier la pointe C.

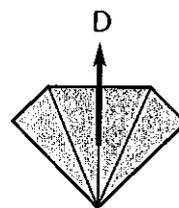

15. Retourner.

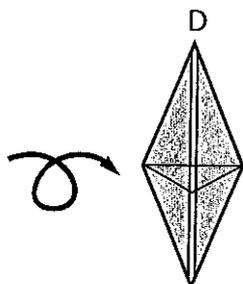

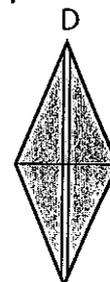

16. Réaliser les étapes 12 et 13.

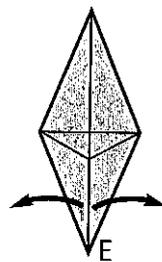

17. Redéplier.

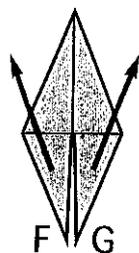

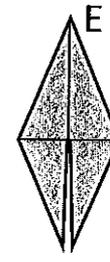

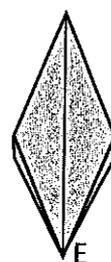

18. Relever la pointe D afin d'obtenir un grand losange.

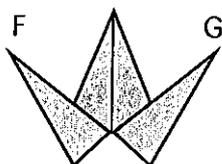

19. Retourner.

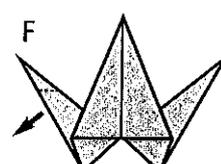

20. Déplier les côtés et remonter la pointe E comme lors de l'étape 18.

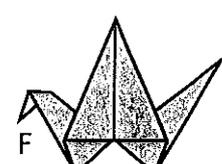

21. Remonter les pointes F et G sur les côtés.

22. Redéplier les pointes F et G et réaliser des plis inversés intérieurs (voir page 9).

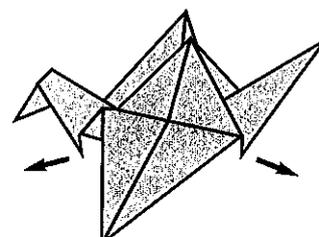

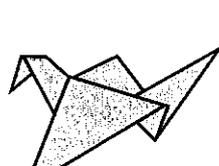

23. Plier la pointe F.

24. Redéplier la pointe F et réaliser un pli inversé intérieur.

25. De chaque côté, rabattre les ailes.

26. Pour que l'oiseau batte des ailes, tirer sur les deux languettes.
